

SCHOEPS offers 20 different microphone capsules, including omnidirectional, wide cardioid, "Open Cardioid," supercardioid and figure-8 types, as well as a capsule with mechanically switchable patterns (omni/cardioid) and several capsule types for close pickup of speech.

In addition to the standard, phantom-powered CMC 6 amplifier type, SCHOEPS offers a vacuum-tube amplifier and special types for battery-powered operation and for use with pocket transmitters.
